#### Section 4 - First aid measures

Burns: Flush with water immediately. While flushing, remove clothes

which do not adhere to affected area. Call an ambulance.

Continue flushing during transport to hospital.

If in Eyes Immediately flush with plenty of water. Remove any contact

lenses and open eyes wide apart. Call an ambulance and continue flushing during transportation to hospital. Bring

these instructions.

If on Skin Remove contaminated clothing immediately and wash skin

with soap and water. Important to remove the substance from the skin immediately. Continue to rinse for at least 15

minutes and seek medical attention.

If Swallowed Never give anything by mouth to an unconscious person. Do

NOT induce vomiting. Call a physician immediately.

If Inhaled Remove to fresh air and keep at rest in a position

comfortable for breathing. Get medical attention if needed.

## Most important symptoms and effects, both acute and delayed

**Symptoms** 

Ingestion: Not applicable Inhalation: Not applicable

Skin: May be harmful in contact with skin. Causes skin irritation.

Eye: Causes serious eye irritation.

Chronic Suspected of damaging fertility or the unborn child. May cause

drowsiness or dizziness. May cause damage to organs through

prolonged or repeated exposure.

#### **Section 5 - Firefighting measures**

Hazard Type	Flammable liquid
Hazards from decomposition products	Thermal breakdown of this product during fire or very high heat conditions may evolve the following decomposition products: Silica. Carbon oxides and traces of incompletely burned carbon compounds. Formaldehyde. Hydrogen, nitrogen products.
Suitable Extinguishing media	On large fires use AFFF alcohol compatible foam or water spray (fog). On small fires use AFFF alcohol compatible foam, CO2 or water spray (fog). Water can

Product name: Lightspeed

	be used to cool fire exposed containers. Most fire extinguishing media will cause hydrogen release. Thus, in poorly ventilated or confined spaces, the accumulation of hydrogen may result in flash fire or explosion if ignited. Applying foam may release flammable hydrogen gas that can be trapped under the foam.  Unsuitable: Dry powder. Do not allow extinguishing medium to contact container contents
Precautions for firefighters and special protective clothing	A self-contained respirator and protective clothing should be worn. Determine the need to evacuate or isolate the area according to your local emergency plan. Use water spray to keep fire exposed containers cool. Vapours may form explosive mixtures with air.
HAZCHEM CODE	3Y

#### Section 6 - Accidental release measures

Wear protective PVC gloves, chemical goggles and PVC boots. Contain spill with earth and sand. Where practical, transfer spilt material to clean polyethylene containers for disposal. Transfer contaminated earth or sand into polyethylene containers for disposal. Wash down area with excess water. Do not allow to drain or watercourse.

Dispose of solid residues in chemical waste disposal area in accordance with relevant Local Council requirements. Use licensed trade waste contractor to dispose of all chemical residues.

## Section 7 - Handling and storage

#### Precautions for safe handling:

- Keep out of reach of children.
- Read label before use.
- Do not handle until all safety precautions have been read and understood.
- Keep away from heat, sparks, open flames and hot surfaces. No smoking.
- Keep container tightly closed.
- Use explosion proof electrical equipment, ventilation, lighting.
- Ground/bond container and receiving equipment.
- Use only non-sparking tools.
- Take precautionary measures against static discharge.
- Avoid breathing fumes, vapours, or sprays.
- Wash hands thoroughly after handling.
- Use only outdoors or in a well-ventilated area.

Product name: Lightspeed

- Avoid release to the environment.
- Wear protective clothing and protective equipment.

## **Conditions for safe storage:**

- Store away from incompatible materials listed in Section 10
- Store in a flameproof, well-ventilated area.
- Electrostatic charges may be generated during transfer of product from its container.
- Ensure that all equipment is electrically earthed.
- Keep container closed and store away from water or moisture.
- This product may evolve hydrogen on storage.
- Vapours may form explosive mixtures with air.
- Do not store with oxidizing agents.
- Store locked up

## Section 8 - Exposure controls/personal protection

## **WORKPLACE EXPOSURE STANDARDS (provided for guidance only)**

Substance	WES-TWA		WES-STEL	
Jubstance	ppm	mg.m <sup>-3</sup>	ppm	mg.m⁻³
Xylene o-, m-, p- or mixed isomers	100	435		
Ethylbenzene	100	435		
2-Butanone, Oxime	200	590		

USA OSHA Permissible Exposure Limits (PELs) Table Z-1, April 2024. The time-weighted average exposure standard designed to protect the worker from the effects of long-term exposure. Workplace Exposure Standard – Short- Term Exposure Limit (WESSTEL). The 15-minute average exposure standard. Applies to any 15- minute period in the workingday and is designed to protect the worker against adverse effects of irritation, chronic or irreversible tissue change, or narcosis that may increase the likelihood of accidents. The WES-STEL is not an alternative to the WES-TWA; both the short-term and time-weighted average exposures apply.

#### **Engineering Controls:**

Provide adequate ventilation. Observe Occupational Exposure Limits and minimize the risk of inhalation of vapours. An eye wash bottle must be available at the work site. Mix and prepare in a place with efficient exhaust ventilation.

#### **Personal Protection Equipment**

Res	nir	at:	or	V
1100	$\sim$ $^{\circ}$	uч	<b>О</b> Т.	y

Suitable respiratory protection should be worn in confined spaces or in case of inadequate ventilation. A suitable respirator must be worn if an aerosol or mist is generated.

Product name: Lightspeed

Hands	Wear protective gloves. Nitrile gloves are recommended.
Eyes	Tight fitting safety goggles or face shield should be used. Avoid wearing contact lenses.
Skin	Wear impervious overalls if significant skin contact is likely to occur.
Hygiene	Exercise proper industrial hygiene practices. Wash hands after handling, especially before eating, smoking or drinking. Contaminated clothing should be removed immediately.

## Section 10 - Stability and reactivity

	Stable under normal conditions.	
Possibility of hazardous reactions	No data available.	
Conditions to Avoid	Avoid heat, flames and other sources of ignition.	

Product name: Lightspeed

Incompatible Materials	Hydrogen is liberated on contact with water, alcohols, acidic or basic materials, many metals or metallic compounds and can form explosive mixtures in the air. Can react with strong oxidizing agents.	
Hazardous Decomposition Products	Thermal breakdown of this product during fire or very high heat conditions may evolve the following decomposition products: Silica. Carbon oxides and traces of incompletely burned carbon compounds. Formaldehyde. Hydrogen, nitrogen products.	

# Section 11 – Toxicological information

## **Acute Effects:**

Swallowed	Small amounts transferred to the mouth by fingers during use should not injure. Swallowing large amounts may cause digestive discomfort. Forms methanol and may cause serious injury to man at doses > 200mg/kg
Dermal	May be harmful if in contact with skin.
Inhalation	Not applicable.
Eye	Causes serious eye irritation.
Skin	Causes skin irritation. Repeated or prolonged contact may cause defatting of the skin leading to dermatitis.

## **Chronic Effects:**

Carcinogenicity	Not applicable.
Reproductive Toxicity	Suspected of damaging fertility or the unborn child.
Germ Cell Mutagenicity	Not applicable.
Aspiration	Not applicable.
STOT/SE	May cause drowsiness or dizziness.
STOT/RE	May cause damage to organs through prolonged or repeated exposure.

(triethoxysilyl)-

#### **Special circumstances:**

Formaldehyde may be produced by thermal decomposition in a fire; Formaldehyde is a suspected carcinogen, toxic by inhalation, and irritating to eyes and the respiratory system. Exposure limits should be strictly respected.

## Section 12 - Ecological information

**HSNO Classifications:** 9.1D = Harmful to aquatic life.

9.3C = Harmful to terrestrial vertebrates.

**Environmental Precautions** 

Persistence and Silicone content, biologically not degradable.

Degradability

Bioaccumulation: No bioaccumulation predicted

Mobility in Soil

Siloxanes are removed from water by sedimentation or binding to sewage sludge. In soil, siloxanes are degraded. This product hydrolyses in water or moist air, releasing methanol and organosilicons. This product contains volatile substances which may

spread in the atmosphere.

Other adverse effects No data available

#### Section 13 – Disposal considerations

#### **Disposal Method:**

Spent media that has removed toxic chemicals should be examined for specific hazards. Dispose of according to Local Regulations.

Ensure any container holding waste product or contaminated spill media is labelled "Hazardous Waste – Flammable", and that the label also has the Flammable Pictogram, waste type identifier, and the business name, address, and phone number.

Product name: Lightspeed

Precautions or methods to avoid: Avoid release to the environment.

## Section 14 - Transport information

This product is classified as a Dangerous Good for transport in NZ; NZS 5433:2012
